- ❑ Knowledge
 - Collaboration, communication, education, and outreach
- ❑ Resources
 - Recruiting, training, repurposing, other agencies and industries' expertise
- ❑ Culture
 - Leadership, vision, proactive strategic planning
- ❑ Information
 - Standardized, value based information models
- ❑ Technology
 - Shared development, services based, open source

Create a uniform view of a person, based on comprehensive, standardized information, for integrated and intelligent delivery of services, to improve the quality of life for individuals and families, empowering full engagement toward the betterment of society.

...HIE is just the first step in our journey

- ❑ **Recognize** Medicaid as a major player in HIE and broader services delivery enterprise
- ❑ **Leverage** expertise from other agencies, organizations, and industries
- ❑ **Engage** in proactive, comprehensive, real strategic planning
- ❑ **Embrace** the business value of standardized information
- ❑ **Modernize** approach to IAPD and RFP development for new generation results
- ❑ **Commit** to the vision, refuse to accept the status quo, and embrace change
- ❑ **Mentor** your peers
- ❑ **Realize** results to achieve the comprehensive mission

Thank You!
