# NMEH MITA Workgroup Update

2008 MMIS Conference  
Nashville, TN  
September 14-18

**Susan Ackley,  
AHCCCS**

# What is NMEH?

- National Medicaid EDI Healthcare Workgroup
- Created by CMS, NASMD, and the S-TAG as a vehicle for state collaboration in response to the original HIPAA mandates
- More than 700 enrolled listserv members
- CMS, State, and Vendor representatives
- Gives Medicaid a voice in standards organizations

# Value Proposition for NMEH

- Multiply the resources available to each state including
  - Experience
  - Expertise
  - Knowledge
  - Risk identification
  - Mitigation strategies

# What role does NMEH play in MITA?

- NMEH MITA SubWorkGroup
  - Business Process Reviews
  - Capability Matrix Reviews

# What have we been up to?

- Since last MMIS we have completed re-review of business processes and reviewed some new processes
- Began review of capability matrices for some business processes

# What is coming up next?

- Continue review of capability matrices for all business processes
- Assist with Business Process modeling in UML (coordinating with HL7 MITA Project)

# Who can participate?

- State employees, consultants and vendors who have an interest in the success of the MITA initiative

# How can you get involved?

- Show up on calls
- Express your opinions and the needs of your state
- Bring subject matter experts
- Work on business process modeling with HL7 MITA workgroup
